REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

Me 261

1. As of January 1952 the Matzed oil field area contains 52 producing wells.

Aderiklaa

2. The Aderikaa oil field has a total of 14 wells in production.

Muehlberg

3. This oil field area includes a total of 58 producing wells.

DEA

4. The DEA complex, comprising DEA I, DEA II and ITAG, numbers 203 producing wells.

Van Sickle

5. The Van Sickle field is reported to have about 27 producing oil wells.

PAG and EPG.

6. No current figures are available on the number of wells in these fields.

Crude Oil Delivered During January 1952

7. Following is a summary of available estimates on the crude oil output of SMV fields during the month of January 1952. These figures represent the amount of crude oil pumped from SMV oil fields and do not indicate actual well production.

SMV Field

**Number of Tons of Crude Oil  
Delivered During January**

Met zien

127,600

Distribution of Matzen Crude Oil

25X1

it is estimated that at least 70 percent of the monthly crude oil output of Matzen is shipped by rail to the USSR and the satellites. (1) A breakdown of the total January output of 127,000 tons shows that approximately 11,500 tons of crude oil were forwarded from the Matzen railroad station to Poland, Czechoslovakia and East Germany; 10,000 tons shipped by rail to the Austrian refineries; and 105,500 tons pumped directly to the Wifo-Lobau tank farm. Of this last figure, oil transports totalling 75,000 tons were despatched by rail from the tank farm to Munkacs; a small portion of the remaining 30,500 was pumped to the Lobau refinery. (2)

Eastward Rail Shipments of Matzen Crude Oil

- On 15 January 1952 the Soviets discontinued shipping crude oil from the Matzen railroad station to the USSR. All rail shipments of Matzen oil destined for the USSR are now forwarded from the Wifo-Lobau tank farm. Following is a list of crude oil shipments despatched from the Matzen railroad station to Poland and Czechoslovakia during January 1952.

| <u>Destination</u>              | <u>Number of Tons of Crude Oil<br/>Exported During January</u> |
|---------------------------------|----------------------------------------------------------------|
| Crushean, Poland                | 2,362                                                          |
| Bialecze, Poland ( )            | 2,125                                                          |
| Musarka Ostrava, Czechoslovakia | 392                                                            |
| Mandubice, Czechoslovakia       | 178                                                            |
| Kalis, Czechoslovakia           | 6,234                                                          |

Distribution of Refined Products

25X1

25X1

25X1

25X1

As of 1 January 1952 the Soviet-controlled refineries no longer deliver gasoline to the Wifo-Lobau tank farm but instead ship directly by tank car to Hungary. [redacted] the storage tanks were gradually being emptied. [redacted] the refined products now stored in the Wifo-Lobau tank farm consist only of the small supply which the Soviets regularly allocate to Oup for sales within Austria.
